CAREER OBJECTIVE

To use my technical knowledge in the area of web development to create websites and applications that provide the company with the highest level of functionality and user experience while ensuring compliance with all relevant rules and laws. I'm determined to advance in my job and pick up new skills in order to keep up with the latest developments in technology and fashion and to help the company succeed.

EDUCATION

Masters Of Computer Application (pursuing) 07/2023 – 04/2025
8.30 CGPA , Charotar University Science & Technology [🔗](#) Anand, India

Bachelor Of Computer Application 07/2020 – 05/2023
8.22 CGPA , Charotar University Science & Technology [🔗](#) Anand, India

PROJECTS

Aura - Social Media Platform 08/2024 – 11/2024

Aura is a web app built with HTML, CSS, Tailwind, JavaScript, Node.js, Express, and MongoDB. It lets users browse, like, and share posts, manage profiles with Email verification, and join weekly mini-events to win prizes. With Razorpay integration, users can unlock premium features like chat and event access. Admins manage events, users, and posts, with APIs tested via Postman.

ChoiceMate - Rating App 09/2024 – 10/2024

Built a rating application using React, Node.js, Express, and MongoDB, allowing users to rate and review products, movies, and series across various categories. The app features an intuitive interface for submitting and browsing ratings, helping users find the best options based on community feedback To help other peoples choosing best Product.

Bhagvat Pipe (Live Project) [🔗](#) 04/2024 – 05/2024
Company Portfolio Web Application

Tour and Travel Booking Web Application 03/2023 – 04/2023
Trip Booking Webapplication

I developed a comprehensive tour and travel booking web application using PHP, MySQL, Bootstrap, and JavaScript. The application features a variety of destinations for users to book trips and an admin panel for for manage the trip data and analysis.
